

SOLAR INNOVATIONS, INC. TO PROVIDE ENERGY EFFICIENT GLAZING SYSTEMS USING SOLADIGM DYNAMIC GLASS

New Glass Offering Will Deliver On-Demand Tint Control to Enhance Comfort and Energy Efficiency in Buildings

Pine Grove, Penn., January 16, 2012—[Solar Innovations, Inc.](#), a custom manufacturer of residential and commercial folding, stacking, and sliding glass doors and windows, glazed structures, and skylights, announced today that it will begin offering innovative residential and commercial glazing systems enhanced with Dynamic Glass from [Soladigm](#). The new product offering, which is projected to be available Spring 2012, will integrate Soladigm Dynamic Glass to allow building occupants to control the tint of the window on-demand, providing unprecedented control of the light and heat that enters a building.

“Soladigm’s Dynamic Glass is an ideal complement to our custom window and door solutions,” said Greg Header, president of Solar Innovations, Inc. “We have always been an industry technology leader and provide innovative solutions to our customers. Our partnership with Soladigm continues this mission by incorporating high-performance Dynamic Glass to deliver the next generation of energy-efficient window glazing solutions.”

Soladigm’s highly energy-efficient Dynamic Glass electronically switches from clear to tinted on demand, and enables control of heat and glare in buildings while providing greater comfort, uninterrupted views, and natural daylight.

“We are excited to partner with Solar Innovations and integrate our Dynamic Glass to create innovative, sustainable glazing solutions,” said Jim Pape, chief commercial officer at Soladigm. “Solar Innovations’ ongoing leadership in developing high performance systems is a perfect fit with our Dynamic Glass.”

Solar Innovations, Inc.’s new offering with Soladigm Dynamic Glass will be available in early 2012. Architects, builders, developers, homeowners and other parties interested in learning more about Solar Innovations, Inc.’s offerings can contact experienced sales staff members at 800-618-0669 or skylight@solarinnovations.com.
