

— Solar Innovations, Inc. —

Over 15 Years of Innovation & Experience

Who We Are...

Single Source Supplier

Single source supplier of aluminum, wood, and vinyl glazing systems; creating consistency throughout your project. We continually develop product enhancements and innovations.

Made in Pine Grove, PA U.S.A.

Solar Innovations, Inc. is proud to manufacture our products in Pine Grove, Pennsylvania. We are committed to creating jobs and enhancing our local economy.

Environmentally Responsible

Solar's aluminum extrusions contain approximately 33% pre-consumer and 11% post-consumer recycled content.

Custom Designs

Our on-site designers make it possible for Solar to assist our customers, their architects, and/or their general contractors with any Design-Build project.

In-house Engineers and R&D Staff

Our in-house engineering staff allows Solar to guide customers through the decision making process and ensure optimal project success and value.

Thermally Enhanced Products

During the design phase, Solar's products are evaluated for thermal efficiency. Performance can be further enhanced through glass selection.

On-site Test Lab

Customers are invited to visit our test lab where our team designs and tests core offerings & project specific products to meet the most stringent performance requirements. Tests are witnessed and certified by a third party representative.

Customer Service Focused

Solar provides customers with project specific quotes. Our friendly staff is available to balance product design and value.
